OFFICIAL PAPER OF HOLT COUNTY

OREGON, MISSOURI
FRIDAY, NOVEMBER 6, 1874

The only perfect thing—A mother's first boy.

Horse thieves are scoured by string bands in Kansas.

The mail from London, Eng., to New Zealand, are hereafter to go by way of San Francisco.

Rumor says the government of France has confidently assured that of Russia, that upon certain conditions it will support the latter's views upon the Eastern question.

The column Vendome, destroyed by the communists at Paris at the conclusion of the German war, is nearly rebuilt. It will be surmounted by a statue of Napoleon.

The Republicans of Spain report the capture of an important strategical point, namely, Cuita, on the southern border of the province of Cuencas. They will fortify it as a basis of operations against the Carlists.

The Italian government is becoming alarmed at the increase of emigration from that country. Over twenty-six thousand persons left the peninsula for other parts of the world last year.

Recent news from the seat of the Indian war state that the war is substantially closed. The Indians are demoralized and are fleeing to their reservations, having had enough of war.

Reports from Europe indicate that the government has evaded itself by its extra harshness toward Count von Armin. It is said that an increasing public sympathy is observable for him in the public mind.

A destructive storm on the northern coast of England and along the shores of Scotland, Oct. 22, resulted in much loss of life and property. The high wind caused some loss also on land. Many ships were blown ashore or foundered at sea.

Aisace and Lorraine are to have a representative assembly; although the functions of the body will be limited to advice to the general government on subjects of local legislation.

The Japanese Mikado has so far broken away from the traditional exclusiveness of his government as to give an entertainment to the diplomatic corps. He freely mingled with the Japanese and received them at his table.

The Lee Avenue Baptist Church, Brooklyn, N. Y., has been excommunicated from the Baptist Association with which it has been heretofore connected, for heresy being the practice and advocacy of open communion.

A convention was held last week at Atlanta, Ga., for the purpose of instituting direct trade between Savannah, Ga., and European ports. Still another plan in the line of improvement of transportation facilities is that of opening the St. Lawrence in the winter as far as Quebec.

Prot. B. G. Northrop, in his annual state report concerning educational matters in Connecticut, shows that there is going on in the country towns of New England a decrease of population, and that common schools and academies are consequently in a state of decay.

A telegram says a railway train, bearing Count von Brandenburg, minister of Germany at Lisbon, who was on his way home, was stopped by brigands, Oct. 22, near Madrid, in Spain, and the minister's chief four hundred dollars in cash, his watch, and all the valuable articles he had on his person.

A single fruit dealer in Chicago reported one day last week receipts of eighty-five full loads, or twelve thousand two hundred and seventy barrels of apples, while his reported sales for a single day were six thousand nine hundred barrels. Chicago is the greatest fruit market in the world.

A promising youth of nine Summers, in Worcester, Massachusetts, at a school, recently relieved his overburdened mind as follows:

"Lord of love, look down from above,
Upon us little scholars;
We have a fool to teach our school,
And pay her twenty dollars."

STYLING MORE.

Cultivate singing in the family. Begin when the child is not yet three years old. The songs and hymns your mother sang, bring them all back to your memory and teach them to your little ones; mix them all together, to meet the similar moods, as in after life they come over us so mysteriously sometimes. Many a child, fit in the very whirl of business; in the bustle and gaiety of Faith avive and amid the splendor of the drives in Central Park, some little things wake up the memories of early youth—the old mill; the cool spring; the shady tree by the little school-house—and the next instant we almost see again the ruddy cheeks, the smiling faces, the merry eyes of schoolmates, some grave-headed now, most "like mounding in the grave." And anon "the song my mother sang" springs unbidden to the lips and soothes and sweetens all these memories.

At other times, amid the crushing mishaps of business, a merry, ditty of the older time pops up in little head, breaks in upon the ugly train of thought, throws the mind into another channel. Light breaks in from behind the cloud in the sky; the new course is given to us. The honest, good singer to his work; and when the day's labor is done, his tools laid aside, he is on his way home, where wife and child and tidy table and cheery fireide wait him; he cannot help but smile.

The bugler never sings. Noisy strife, not the merry song weighs down the dishonest tradesman, the perfidious clerk, the unfaithful servant, the perfumed partner.—Hall's Journal,
